

**In *The Child Within: Surviving the Shattered Dreams of Motherhood*** “Dr Linda Fiske has revolutionised the manner in which women’s infertility and sense of loss can be therapeutically understood and engaged. This book is a must read for women who have experienced infertility or loss through miscarriage, as well as for those in the helping professions who attempt to serve such sufferings. The book demonstrates the value of a soulful approach to women’s sense of failure and loss by way of listening deeply to the images in the stories of the actual lived experiences. It gives witness to the narrative structure of healing and transformation that can result from an experiential journey into the female imagination.” David L. Miller, PhD. Syracuse University, New York.

**Dr Linda Fiske** teaches secondary English and has a strong involvement with advocacy for infertility patients both state and national. She conducts a private educational practice using sand play techniques with people of all ages, exploring images as a path to increased awareness and healing. She lives in Melbourne with her husband and eleven-year-old son.
